Hi Rick. I got your phone message and meant to call you back when I got home, but I think the excitement of having the piano made me forget.

Just wanted to say thanks for all your help and guidance. It's been wonderful to have it for the past few days. The kids are excited. Liz and I are excited too.

I think lessons for all (including me) may be the next order of business. Too bad we don't live closer to your store.

Let us know if you're ever in the vicinity

We really are just down the road. You can come see the Baldwin in its new home.

Have a great weekend!
